

MYRTHA POOLS REFERENCE LIST

POOLS for ARMIES and SPECIAL FORCES

Myrtha® is simply the most exclusive and advanced technology in the swimming pool industry. Its patented pre-engineered modular system, based on the use of laminated stainless-steel panels and buttress system, enables a Myrtha® structure to attain perfect waterproofing, long life performances, high level aesthetics and technical precision.

Myrtha® Technology provides the ideal solution to the many limitations of traditional reinforced concrete structures and ordinary prefabricated swimming pools; it adapts to the challenges of pool construction in varied climates, small spaces or high-rise buildings.

Once installed, a Myrtha Pool does not require the expensive maintenance that traditional pools need every few years thus reducing the amount of scarce resources spent on capital expenditures.

For all these reasons, Myrtha Pools have been chosen not only for great competition events, as Olympic Games and World Swimming Championships, but also for Armies and Special Forces pools:

- ✓ Com.su.bin base – la Spezia, Italy, Italian Navy
- ✓ Naval Academy– Livorno, Italy, Italian Navy
- ✓ Allied Joint Force Command base – Naples, Italy, Italian NATO Forces
- ✓ Camp Ederle – Vicenza, Italy, USA Army Installation Management Command
- ✓ CFB - Cold Lake, Canada, Royal Canadian Air Force
- ✓ CFB – Comox, Canada, Royal Canadian Forces Base
- ✓ CFB – Gaagetown, Canada, Royal Canadian Forces Base
- ✓ CFB – Petawawa, Canada, Canadian Land Force Command
- ✓ Hill air force base, Utah USA
- ✓ Rena Leir military base, Norway, Norwegian army special forces
- ✓ BIR base, Cameroon, Brigade Intervention Rapid special forces.
- ✓ Benghazi, paratroopers' forces, Libyan Arab Jamahiriya
- ✓ Myanmar National Swimming Complex

Com.su.bin base – la Spezia, Italy, Italian Marine Force

COMSUBIN (Comando Raggruppamento Subacquei e Incursori) is the elite Italian combat frogman force and one of the first Italian special forces: their record can be traced back to World War I. Forged by an extremely hard training, the "subacquei" (divers) and "incursori" (raiders) forming the COMSUBIN are a formidable corp of offence and defence.

For this prestigious task force, Myrtha Pools successfully installed in 2000 a 33m training diving pool in the corps headquarter, based at Le Grazie, in the gulf of La Spezia

Leghorn Naval Academy, Italy

The Italian Naval Academy (Italian: Accademia Navale) is a coeducational military university in Leghorn (Livorno), Tuscany, which is responsible for the technical training of military officers of the Italian Navy.

It is a prestigious military university; its surface covers 215.000 sqm and hosts yearly almost 1250 students as cadets and officers. In 2004 Myrtha Pools completely renovated with its special patented technology Renovaction the 50 m pool inside the sport complex.

Allied Joint Force Command base – Naples, Italy, Italian NATO Forces

Allied Joint Force Command (JFC) Naples prepares for, plans and conducts military operations in order to preserve the peace, security and territorial integrity of Alliance member states. Twenty-two NATO nations contribute to the JFC Naples military staff in order to deter aggression and to contribute to the effective defense of NATO territory and forces, safeguard freedom of the seas and economic lifelines and to preserve or restore the security of NATO nations.

In the main base, located in Naples, Myrtha Pools was proud to renovate the filtration plant of the existing officers pool.

Camp Ederle – Vicenza, Italy, USA Army Installation Management Command

Camp Ederle is an Italian post where the U.S. Army has troops stationed located in Vicenza, Italy. The post serves as the headquarters of United States Army Africa, the 173d Airborne Brigade and the U.S Army Installation Management Command, an umbrella for all U.S. military properties in Vicenza.

The USAG Vicenza Fitness Center inside the Camp provides a high level of mission sustaining sports, fitness and aquatics programs and activities that promote healthy lifestyles.

For this reason, in the recreational center inside the camp, across from the Arena Entertainment Center, Myrtha was charged to install in the past a 25x10 m Overflow Classic Myrtha pool.

In 2012 a contract was signed for the Renovaction of another pool. Works are still under progress.

Canadian Force Base - Cold Lake, Canada, Royal Canadian Air Force

Canadian Forces Base Cold Lake, commonly referred to as CFB Cold Lake, is a base located within the city of Cold Lake, Alberta. It is operated as an air force base by the Royal Canadian Air Force and it provides general purpose, multi-role, combat capable forces in support of domestic and international roles of Canada's Air Force. In 1998 Myrtha Pools was awarded by Canadian Army for the supply and installation of a Myrtha competition pool, dimension 25x15mx1.2-3.5 m

Canadian Forces Base – Comox, Canada, Royal Canadian Air Force

Located 5 Km north northeast of Comox, British Columbia, CFB Comox is the primary air defence installation on Canada's Pacific coast and serves as the home base for maritime patrol/anti-submarine aircraft and fixed-wing and rotary-wing search and rescue aircraft. It is moreover the location of the Canadian Forces School of Search and Rescue, where all para-rescue specialists in the Canadian Forces undergo training.

Also, in this base, Myrtha Pools installed a 25x15m competition pool.

Canadian Forces Base – Gagetown, Canada, Royal Canadian Air Force

CFB Gagetown is a large Canadian Forces Base located in southwestern New Brunswick. It boasts an 1100 square kilometres training area, 1500 kms of roads, 900 kms of tracks, 740 buildings and some 6000 military and civilian personnel at the main base and lodger units across New Brunswick and PEI.

In the CFB recreation center, Myrtha Pools renovated in 2000 a competition Overflow classic pool, dimensions 25x12,5x1,2m with Renovation technology.

Canadian Forces Base – Petawawa, Canada, Canadian Forces Land Force Command

Canadian Forces Base Petawawa, commonly referred to as CFB Petawawa, is a Canadian Forces Base located in Petawawa, Ontario. It is operated as an army base by Canadian Forces Land Force Command. The base has an extensive infrastructure with 465 buildings and over 300 km² of property comprising the Petawawa Training Area. The main fitness facility houses a 5.000 m² field house containing, among the other facilities (indoor running track, whirlpool and sauna) also a 25x12,5 m pool, which Myrtha Pools successfully renovated in 2000 with Renovation Technology.

Hill air force base, Utah USA

Hill Air Force Base is a major U.S. military base located in northern Utah, 30 miles north of Salt Lake City. In 2004 Myrtha Pools renovated the outdoor pool situated in the recreational center with a RenovAction Skimmer Mosaic 25x12.7m H1.05-3.6m

Rena Leir military base, Norway, Norwegian Army special forces

Hærens Jegerkommando is a special forces unit of the Norwegian military. It is the armed forces competence centre for commando, airborne and counter terrorist duty in the Norwegian Army. Its headquarters are located 30 kilometres north of Elverum in the southeast of Norway, at **Rena leir military base.**

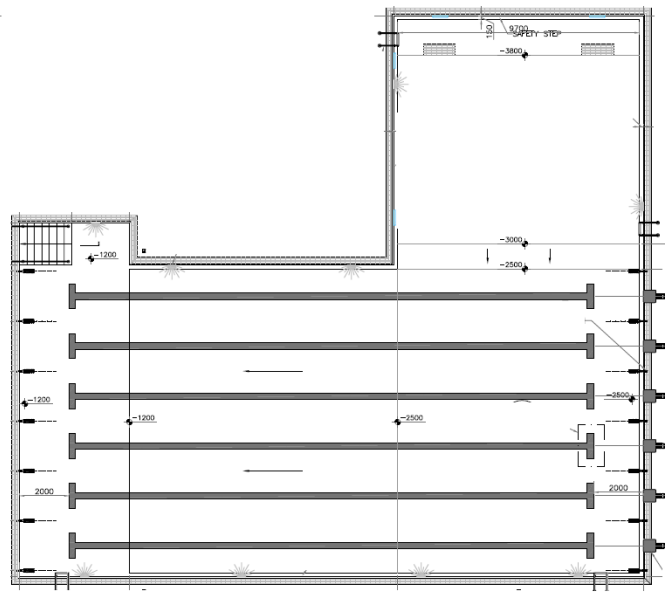

In the base, at the time under construction, Myrtha Pools built in 1996 a Myrtha Overflow Classic, dimensions m 25x11 indoor pool

BIR base, Camerun, Brigade Intervention Rapide special forces

This brand-new pool, installed in 2011, consists of 2 Myrtha Pools, a 5x10x0.35 Renovaction Classic and a 25x22.5x1.20-3.8 Myrtha Classic, built for the Brigade Intervention Rapide, a military special force of Cameroun Army.

The 25 m pool has a special area, 3,8 m deep, specially built for divers training.

Benghazi, para-troopers forces, Libya

The very first Myrtha built for an International Army!

In 1976, more than 35 years ago, Myrtha Pools successfully completed a huge pool (dimension 65x18!) for the para-troopers forces of Benghazi, Libya.

Myanmar National Swimming Complex

Least but not last, the most recent Myrtha project for Army forces, still under construction: a complete swimming complex for the military government of Myanmar to be built in the new capital city Nayphitaw.

It will include:

- a competition swimming pool, dimensions 51,5 m x25 h.3 m Cer/1 technology
- a diving pool, dimensions 25x25 h. 5 m Renovaction technology
- a warm-up pool, dimensions 50x25 h.135-180, RenovAction technology

UNIFA (University of the Air Force, Rio de Janeiro)

50x25 h.2m Ceramic/1, Defender filtration system.

The new Myrtha swimming-pool built inside Rio's Universidade da Força Aérea was commissioned by the Brazilian Ministry of the Air Force one year before the opening of the Olympic Games.

The Ministry were quick to choose to have the highest quality for their sporting facility that would be a training pool for the Olympic Games yet would remain as a permanent fixture in the Ministry's university campus.

Installed in under two months, the swimming-pool and the sporting centre are now an outstanding legacy for Rio: there is no other facility within miles that can boast such a prestigious centre of excellence and training for future athletes.

This pool is equipped with the innovative Virtual Trainer system, with LED strips embedded into the lane lines to assist the swimmers' pace as they train.

Guaratinguetà (base Militare a 200 km da San Paolo)
50x25 h.2 Classic Competition, Defender filtration system
